Hot Tubs

A romantic couple is shown in profile, embracing each other. The man is in the foreground, wearing a white shirt, and the woman is behind him, also in a white shirt. They are both looking out over a body of water towards a bright sunset. The sun is a large, glowing orb on the horizon, casting a warm, golden light across the sky and water. The overall mood is peaceful and intimate.

CHOOSING A JACUZZI® HOT TUB

Jacuzzi
WHIRLPOOL BATH

custom line low-boy family spa

1970

An entirely new dimension in family recreation
combining the many pleasures and relaxing benefits
of whirlpool therapy in the newest, most luxurious concept by Jacuzzi.
The whole family will love it.

The first hot tub

What is Hydrotherapy?

HEAT

During exercise or strain on the muscles, lactic acid is produced. Lactic acid removal is sped up by heat, allowing the muscles to become less fatigued and recover faster. Additionally, moving hot water increases this effect by increasing heat conduction.

BUOYANCY

Buoyancy is an upward force exerted by a liquid, gas or other fluid that opposes the weight of an immersed object. When submerged, there is less pressure on the body, tissues, and muscles.

MASSAGE

Massage is the manipulation of superficial and deeper layers of muscle and connective tissue to enhance function, aid in the healing process, and promote relaxation and well-being.

A Jacuzzi® hydrotherapy massage delivers a precise combination of heat, buoyancy and massage for immediate

relaxation

What is Hydrotherapy?

WHAT A JACUZZI® SPA CAN DO FOR YOU

What is Hydrotherapy?

HEALING & MENTAL WELLNESS

MUSCLES & JOINTS

- ✓ Increase muscular range of motion for better flexibility
- ✓ Help athletes prepare and recover
- ✓ Reduce spasm and cramps
- ✓ Increase joints flexibility
- ✓ Reduce pain
- ✓ Promotes tissue regeneration – recover from injuries
- ✓ More effective stretching

What is Hydrotherapy?

BLOOD & HEART

- ✓ Decreased blood pressure
- ✓ Increased blood circulation
- ✓ Increased oxygen absorption: more energy
- ✓ Benefit for heart

PSYCHOPHYSICAL BENEFITS AESTHETICAL BENEFITS

- ✓ Promote better sleep
- ✓ Relief from anxiety and depression
- ✓ Relief from headache
- ✓ Release of endorphins
- ✓ Improve skin conditions
- ✓ Help reduce cellulitis

The hot tubs

WHAT IS A HOT TUB?

The hot tub is a hydromassage mini pool.

THE BENEFITS

The Jacuzzi® hot tubs are real hydrotherapy tools.

Hydrotherapy uses water to speed up the body recover.

THE JETS

Various dimensions and power to fit all muscles and tissues.

Jacuzzi® hot tubs: features & benefits

DURABLE ACRYLIC SHELL

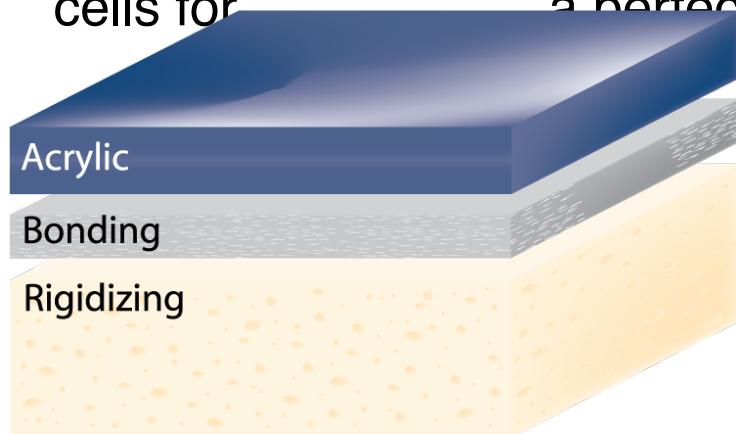

Trifusion™ process with reinforced backing for a longer lasting, crack-resistant surface.

ACRYLIC: Stain and scratch resistant

BONDING: Vinylester resin creates an inseparable bond with the acrylic

preventing blistering or delaminating.

RIGIDIZING: Polyester, a blend of fibers & aerospace resins form a flexible structure containing millions of air-closed cells for a perfect insulation

ADVANTAGES	BENEFITS
Acrylic: stronger hot tub shell	Long term beauty
Bonding: vinylester layer	Superior bond strenght
Rigidizing: polyester layer	Greater strenght
Insulation value	Saves energy, low electric bill

PowerPro® Jets

HOT TUB JETS THAT GIVE A BETTER MASSAGE

From deeply relaxing to powerfully invigorating, the PowerPro® jets offer a full range of massage types

- **Pressure point Jets**: stimulate acupressure points
- **Whirlpool Jets**: vigorous deep muscle massage
- **Therapy Jets**: swirling motion, rotating or stationary
- **Relaxation Jets**: gentle, soothing massage with bubbling water motion

PRESSURE POINT JETS:

PowerPro® FX SMALL – focused massage on key pressure point

such as feet. The jets are adjustable.

WHIRPOOL & THERAPY JETS

PowerPro® FX ROTATIONAL – focused on smaller muscle group

tissue

this jet stimulates surrounding

WHIRLPOOL & THERAPY JETS:

PowerPro® FX – a spiral stream of air&water to stimulate small muscle groups; fully adjustable for high

a

low pressure.

BENEFIT: Shoulders & Neck - Legs

PowerPro® FX DIRECTIONAL – spiral directional jet, it relieves tension and improve circulation; specific for hips.

BENEFIT: Hips

WHIRLPOOL & THERAPY JETS:

PowerPro® FX LARGE ROTATIONAL – spiral action jet
providing

back

massage for large muscles of

and shoulders areas.

BENEFIT: Lower back - Feet

PowerPro® FX LARGE – spiral action, it focuses on the middle
of

strain,

the back relieving tension and muscle

typically caused by poor posture.

BENEFIT: Lower back - Feet

WHIRLPOOL & THERAPY JETS:

PowerPro® NX2 – focused stream of water specific for the neck area; adjustable for direction & intensity.

BENEFIT: Neck area

PowerPro® RX – specific for back and shoulders area; fully adjustable.

BENEFIT: Shoulders & Back

WHIRLPOOL & THERAPY JETS:

PowerPro® MX2 – powerful to deliver a bold massage to the muscles in the lower back.

BENEFIT: Shoulders & Back - Feet

PowerPro Therapy jets have the body covered:

Muscle Tension Headaches:

Pressure points in neck, shoulder and upper back

Back Pain:

Trigger points and knots in back and lumbar regions

Hip Pain:

Adjustable soothing of sore hip muscles

Arthritis:

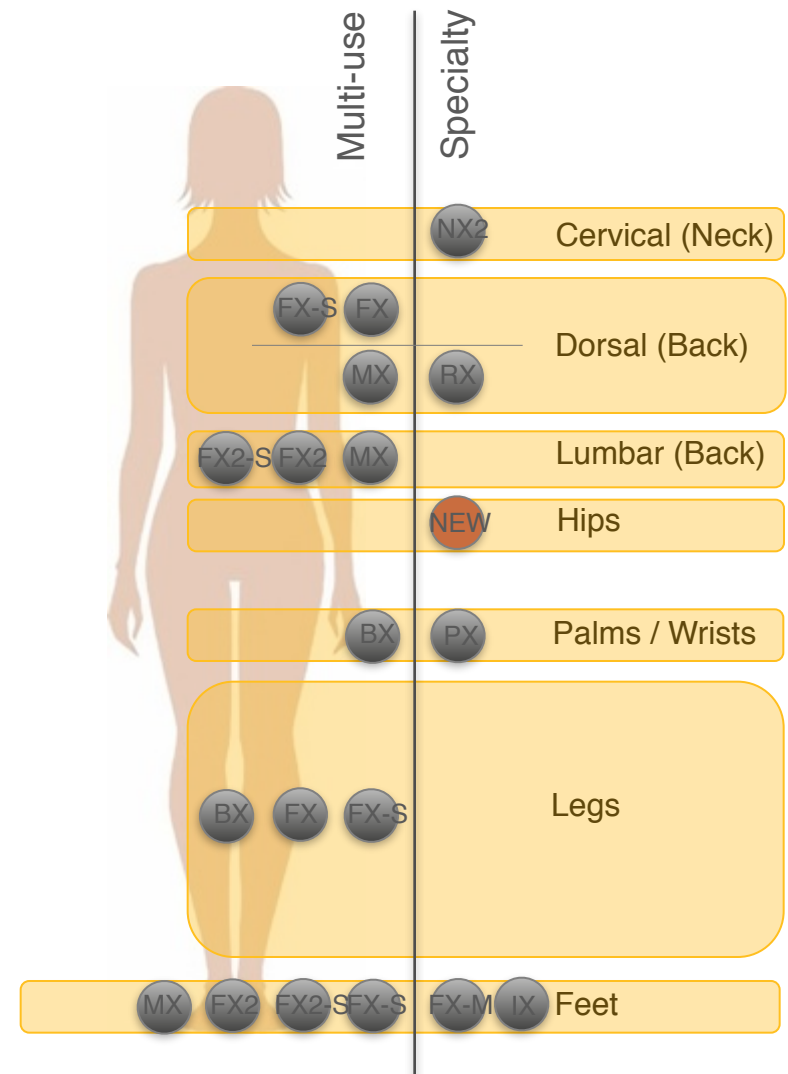

Jets at palms can sooth finger joints and wrists

Leg Cramps:

Targeted and highly aerated delivery

Edema:

Improves circulation in swollen feet

The Deep Tissue massage

It's the massage interacting with the **deep tissues** of the muscles.

In this part we find the toxins generated by the stress and the muscles' inflammation.

This massage allows a tension's relief and muscles' relaxation:

- **elimination of the toxines**
- **improved blood circulation and oxygenation**

This massage is so called because it acts on the **connective system**, that is to say the system which provides to the connection, support and the nourishment of the body's tissues.

The Connective Tissue Massage (aka Deep Tissue Massage) relaxes the muscles so it's particularly suitable for people doing **sport** and for all who accumulate tension and stress during the day

Carefully projected and engineered to provide the best posture:

- ✓ **THERAPY SEATS:** specifically designed for an intense, «total body hydrotherapy
- ✓ **LOUNGE SEATS:** perfect mix of ergonomics, hydrotherapy and relaxation
- ✓ **COOL-DOWN SEATS:** to slowly adjust the body temperature and to easily enter/leave the hot tub – great for children

RX JETS THERAPY SEAT

It delivers a soothing, fully adjustable amount of pressure. This seat allows you to focus the force on whichever back and neck muscles are most in need of relief..

MX2 JETS THERAPY SEAT

Designed to provide relief to the most prominent muscles in the lower back, this seat directs a light amount of pressure to the deep contours of the lumbar.

The Therapy Seats

FX12 JETS THERAPY SEAT

Specifically developed to deliver precise, spiral propulsion to the back and neck

PROAIR™ LOUNGE SEAT

releases knots by targeting the acute muscle groups of the back and neck with both a rotational massage and rifling action.

The Wellness Path

The water care

The FILTRATION catches the impurities floating in the water

Filter is key: the greater its surface, the more impurities will be retained

THE MULTI-STAGE FILTRATION PROCESS

MULTI-STAGE FILTRATION PROCESS

The water care

SURFACE SKIMMER & GRILL

PROCATCH™ FILTER BAG

PROCLEAR™ FILTER CARTRIDGE

- ✓ 7 sq.mt surface
- ✓ MICROBAN® treatment
(antimicrobial, odor control)

PROCLARITY™ FILTER CARTRIDGE

✓ 4 sq.mt surface

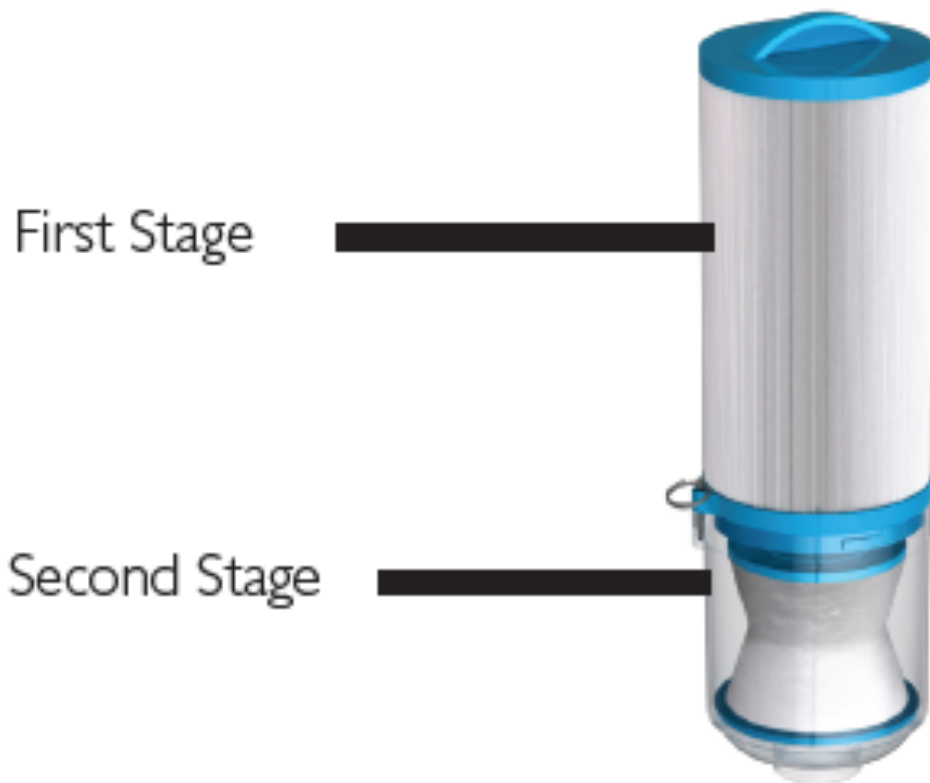

PROCLARITY™ FILTER

CARTRIDGE

A two-stage filter that removes the finest particles in the water.

First stage: any particles are trapped by the dense filter.

Second stage: removes the smallest particles

ITALIAN DESIGN PLEATED FILTER

✓ 4 sq.mt surface

PERFORMANCE KIT – SAND FILTER + PUMP

to be installed outside the spa; designed for intensive use.

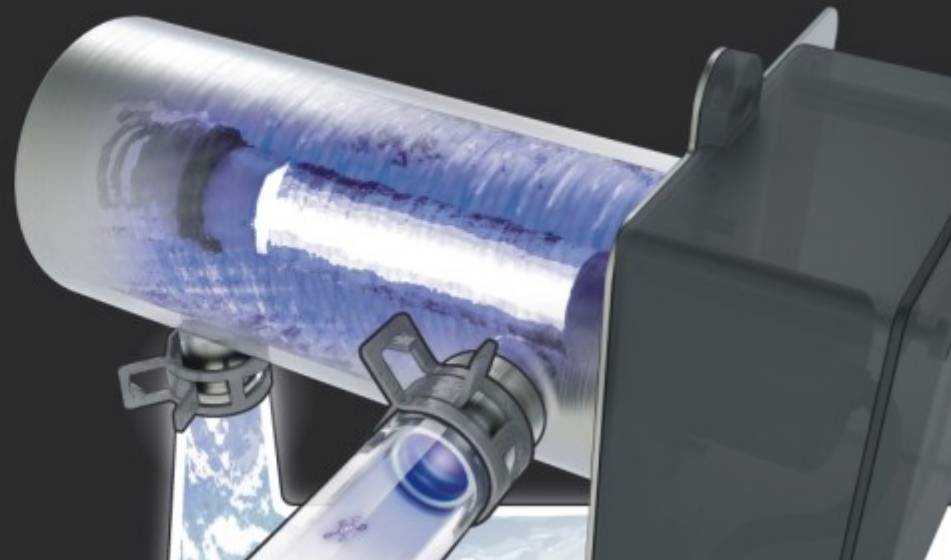

PURIFICATION: CLEARRAY® UV-C

For clean and clear water, using UV-C technology to neutralize waterborne pathogens and reduce the amount of sanitizers.

CLEAR RAY™
WATER PURIFICATION SYSTEM

The water care

PURIFICATION: CLEARRAY® PRO3TECT™

- ✓ Automatic oxidizer
- ✓ Work with ClearRay®
- ✓ Low-output ozone has minimal off-gassing and prolongs life of equipment

CLEARRAY® PRO₃TECT™

LOW OUTPUT OZONE GENERATOR

DESIGNED TO WORK WITH
CLEAR RAY®
WATER MANAGEMENT SYSTEM

THE WATER CHEMICALS

keep your hot tub water in suitable conditions

1. BALANCE THE WATER

Check hot tub's alkalinity, calcium level (hardness), and pH level
by means of test strips

2. ADD CHEMICALS

Use Chlorine, Bromine, Oxygen to fight water bacteria. Simply check the chlorine or bromine levels with test strips and change the amount of sanitizer you add according to the test results.

3. SHOCK TREATMENTS

After a rain storm, water change, or heavy use like a backya party: shock treatment helps to keep water clean.

The thermal covers

Jacuzzi® hot tub covers retain heat and offer protection for your spa when not in use.

- STANDARD
- PROLAST™
- PROLAST™ EXTREME
